

## Humanoid League - RoboCup2004

**OBS.** The list below was initially expected to close by 15th January 2004 and is simply considered to be an indication of teams' intention to participate in RoboCup2004 and it does not represent any commitment for the teams or for the organization!

The purpose and validity of the list has now expired! Report to the page at the Humanoid League website at <http://borneo.ais.fraunhofer.de/robocup/HL2004/teams.html> where is shown the list of teams that applied with qualification material to be analysed by the International Technical Committee of the Humanoid League. 20 teams applied and only 16 will be accepted to participate in Robocup2004.

**NB.** Teams should confirm that they have supplied the Travel Support Form when they applied for qualification. If not, they should supply it as soon as possible (at the [Humanoid League](#) website).

List of teams that have submitted pre-registration information by order of arrival

Robot / Team	Team leader	Institution	Country
